Dear Willie,

I wanted to thank you and your team for the wonderful job you did in painting our building. When the President of our Company decided that the time had come to finally go forward with this project and handed it to me, I must say that I was slightly overwhelmed. Thanks to Google, I found Signature Painting and the overwhelm disappeared.

From beginning to end, it was a pleasure to work with you and your very professional team. You took care of everything painlessly – from getting permits for the scaffolding, speaking with the neighbors about access to the back of the building, recommending the perfect paint combinations and even washing the windows (!) – and the building has never looked better.

Your team of painters was professional, courteous, friendly and extremely efficient. You managed to complete the project on time, on budget and with very little inconvenience for our staff and for our tenants. You were always easy to reach and easy to talk to.

In the end, you made me look like a star!. Please feel free to give my name and number to any of your potential clients. I will give Signature Painting a stellar review.

Thank you again for your great partnership and for a job very well done.

Kind regards,

Assistant to the President
